

Welcome to WCR's HVAC-R Department.

We have been serving Ada and its surrounding areas for the past 30 years. We have provided service and installation for both residential and commercial customers. We even taught the HVAC-R Trade at the Wes Watkins Carrer Tech for 8 years. We specialize in installation, service, and repair of all types of HVAC-R systems. We are one of the few Oklahoma State LP Administration licensed Contractors to work safely with Propane Gas as well as Natural Gas. Let us help you install, fix or service all your HVAC-R needs.

Our license is for Unlimited Mechanical Contractor, meaning nothing too big or small.
